Learn the logical sequence of flight planning using the www.aviationweather.gov website. We will cover each tab in an easy format. In the satellite tab, we will go through each satellite image and explain in details how to decipher the information. Then continue to Radar, Winds Aloft, etc. WINGS credit qualified.

Directions: Drive South to Ahtanum. West to 21st Avenue. Right to Airport Gate. If flying, ask tower for progressive instructions to Yakima Airpark.
